

# Daniel Strolle

Full-Stack Developer with a background in IT services and technology deployment. Analytical thinker who enjoys solving problems. Currently studying Python and working daily with Java and Javascript, crafting methods and connecting logic in order to hone my skills.

## Software Developer

San Antonio, TX  
(210) 542-2507  
danielstrolle@gmail.com  
github.com/danielstrolle

## RECENT PROJECTS

### CapStone Project, In Progress

Currently Creating an application called “livemusicismy.life” that uses a Spring framework, RESTful APIs, AJAX calls, Java, JavaScript and Materialize. Allows a user to register an account, search for and add bands, search for and add shows near them, make friend requests and see their friends activity.

### blog.danielstrolle.me, Completed 10/2017

Using a Spring framework, create an application that uses controllers, models, and repositories to present different views to the user. Implemented authentication security throughout with configurations and tokens. Allows users to register an account with a unique username and then create blog posts.

### Ad-Lister Application, Completed 10/2017

Built a web application that uses Java, MySQL, and front-end styling to present a clean and user friendly interface. Used MySQL queries to allow the user to both create users and create ads. Implemented verification throughout to make sure a user is registered and logged in to be able to use our site.

## EXPERIENCE

### Intech Southwest Services, San Antonio, TX

Warehouse Technician August 2016 - July 2017

- Ensured hardware was functional and ready to use, then delivered and deployed to site.
- Maintained customer relationships while servicing, replacing, or repairing their hardware.
- Kept inventory of hardware received to fill purchase orders.

### Jewish Community Center, San Antonio, TX

Senior Counselor June 2014 - December 2015

- Maintained relationships with kids and their parents. Gave updates on the kids' progress and behavior to the parents.
- Oversaw activities for groups of kids meant to build their personal and interpersonal skills.
- Chaperoned kids off campus on field trips around San Antonio.
